INTERESTS & FREETIME

Design, architecture, graphism and Photography
Backpack travels to discover culture, food, people, and human behaviours

Active swimmer, freeride skier, snowboarder, in line skater, mountain biker and newly surfer. (in forecast: kite-surfing ;-)
Don't lose the opportunity to practice rowing, canyoning, rock climbing, free running and mountain sports in general.

Formerly practicer of contact sports: judo, kickboxing, fullcontact, capoeira

Formerly fisherman: course fishing, fly fishing, sea fishing
(competitions and classification between 1995 and 2000)

THEY RECOMMEND

“I first worked with Stephane during my time at Node. While producing great work and contributing well to the team, the thing that struck me most was Stephane's ability to run with an idea and take the work to another level. He taught me a lot about design and offered another approach to the work. Based upon this experience, I have hired Stephane a number of times to work with the Gluto.com team. We have given Stephane all the creative freedom he needs as we know he will deliver high quality work and go beyond what was requested. Albeit 'freelance' work, at Gluto.com we very much consider Stephane one of the team. He helps us in many areas and we look forward to continue working with him in the future.”

Adam Salter, Partner, GLUTO, Stéphane's client - salter@gluto.com

“Stéphane is a force of nature. He has limitless energy and passion for designing user-experiences, illustrating new business concepts, and tackling new challenges. Steph is the kind of guy who always wants to try something new, use new tools and technologies to create more dynamic 'living' solutions. He will do graphic design, industrial design, video, animation - you name it. Harness his raw energy and you have a very powerful team mate who loves working and is always lends an extremely open, positive spirit to any project.”

Rich Radka, Partner, NODE, managed Stéphane at Node - rich.radka@node.es

“Stephane is a talented designer extremely committed to his word. He is very proactive and creative.”

Pilar Elias, Senior Manager, NODE, managed Stéphane at Node - pilar.elias@node.es

“Stephane collaborated with me in several projects needed of different skills both as industrial and interaction designer and consultant. His performance and commitment was fully satisfactory in all cases. Stephane is a talented designer with broad skills and an excellent "team player". Specifically we collaborated in the launch of a new pharmaceutical product where the role of Stephane to help define the concept and positioning and design the packaging of the product was key to the success of the project. I deeply recommend Stephane, my experience working with him has been more than satisfactory.”

Rafael Martínez de Lejarza, Manager, NODE, managed Stéphane at Node - rmlejarza@yahoo.es
